

2010-2011 Outreach Support

St. John's Outreach Committee believes that when making the decision to support a local, national, or international cause, our commitment may come in the form of financial support, hands-on involvement, or a combination of both. It is imperative that we build lasting partnerships with the organizations we support and spend time and resources working together to achieve our mutual goals.

The Outreach Committee is trying to do God's work. We will continue to listen to organizations and make decisions to the best of our abilities.
